

Digital Earth
AFRICA

GEO Initiative

Digital Earth Africa

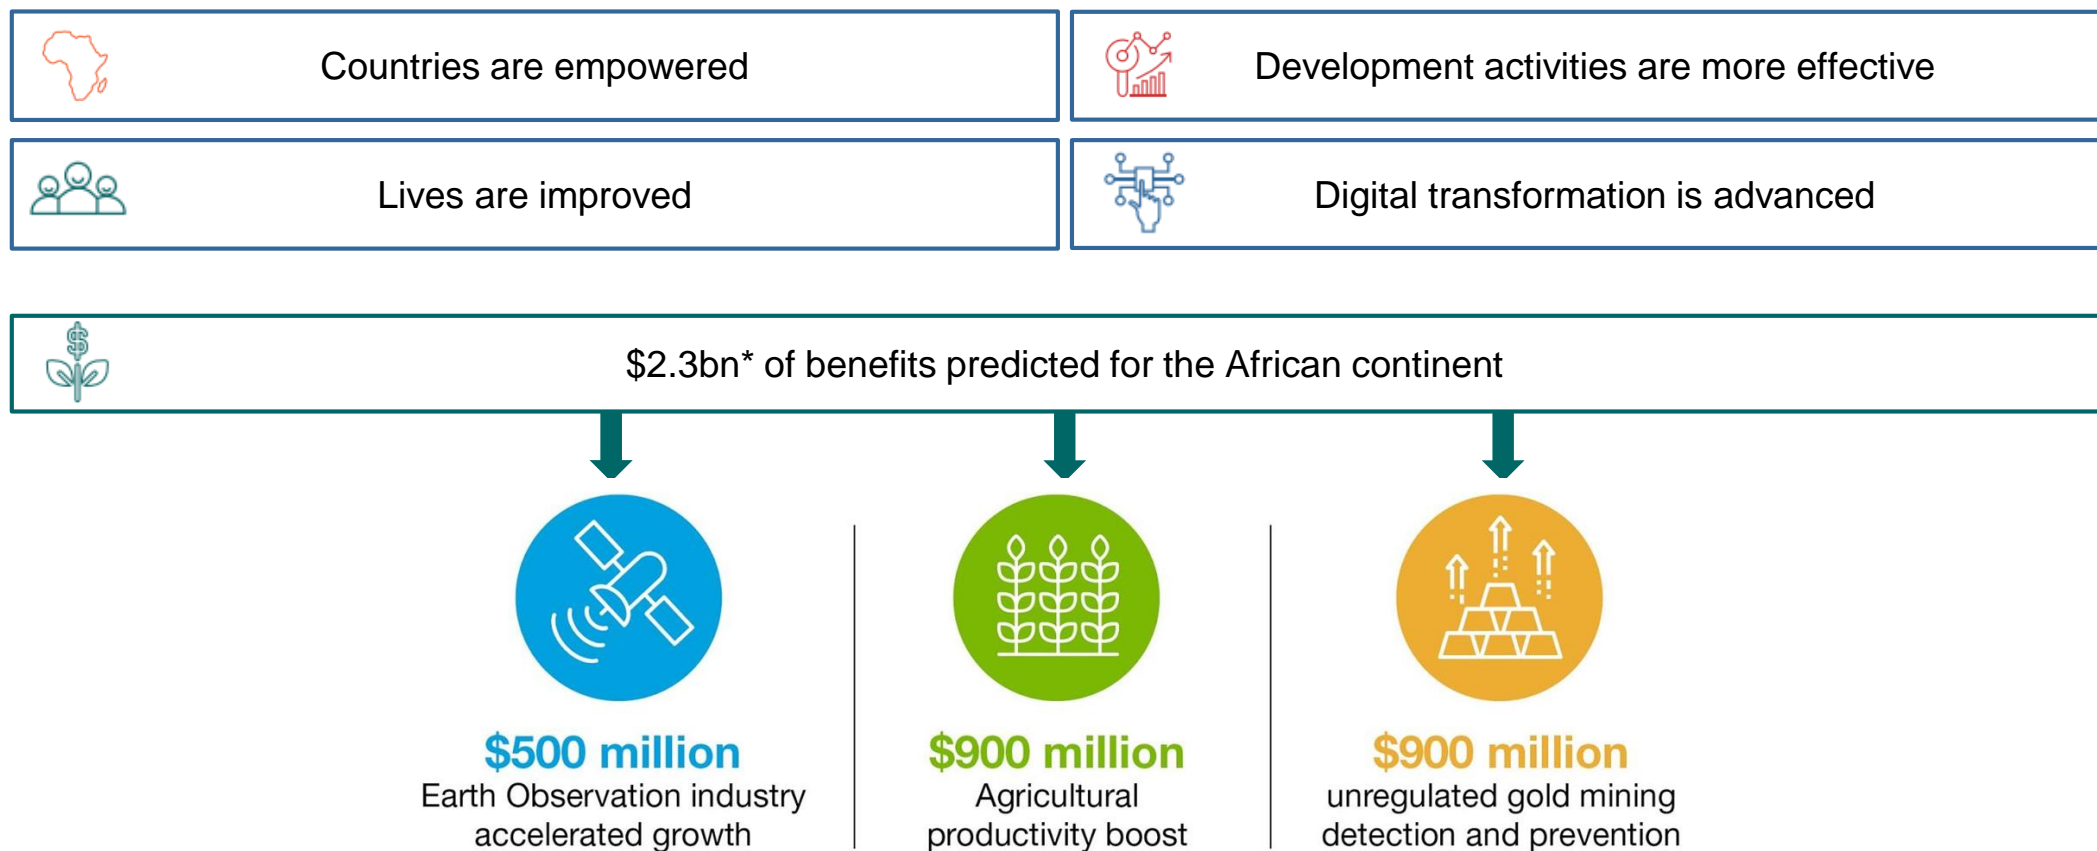

Presentation to the GEO PB

18/05/2021

Key points

1. DE Africa's implementation plan is well established with several achievements under the belt in the last year and half of its operations
2. Currently transitioning cloud operations to Cape Town – expected to be completed by May 2021
3. Contract negotiations currently in progress to establish a Project Management Office (PMO) in Africa
4. Working on a sustainment plan including approaching potential investors/funders to maintain its operations beyond 2022
5. DE Africa is already making an impact by providing high quality ARD services to GEO community in Africa

The potential of ARD for Africa

Our network

Omar Seidu

Project Management Office
(PMO) – to be announced
soon

Our partners

DE Africa Platforms

Sentinel-2 (10m) Annual GEOMAD

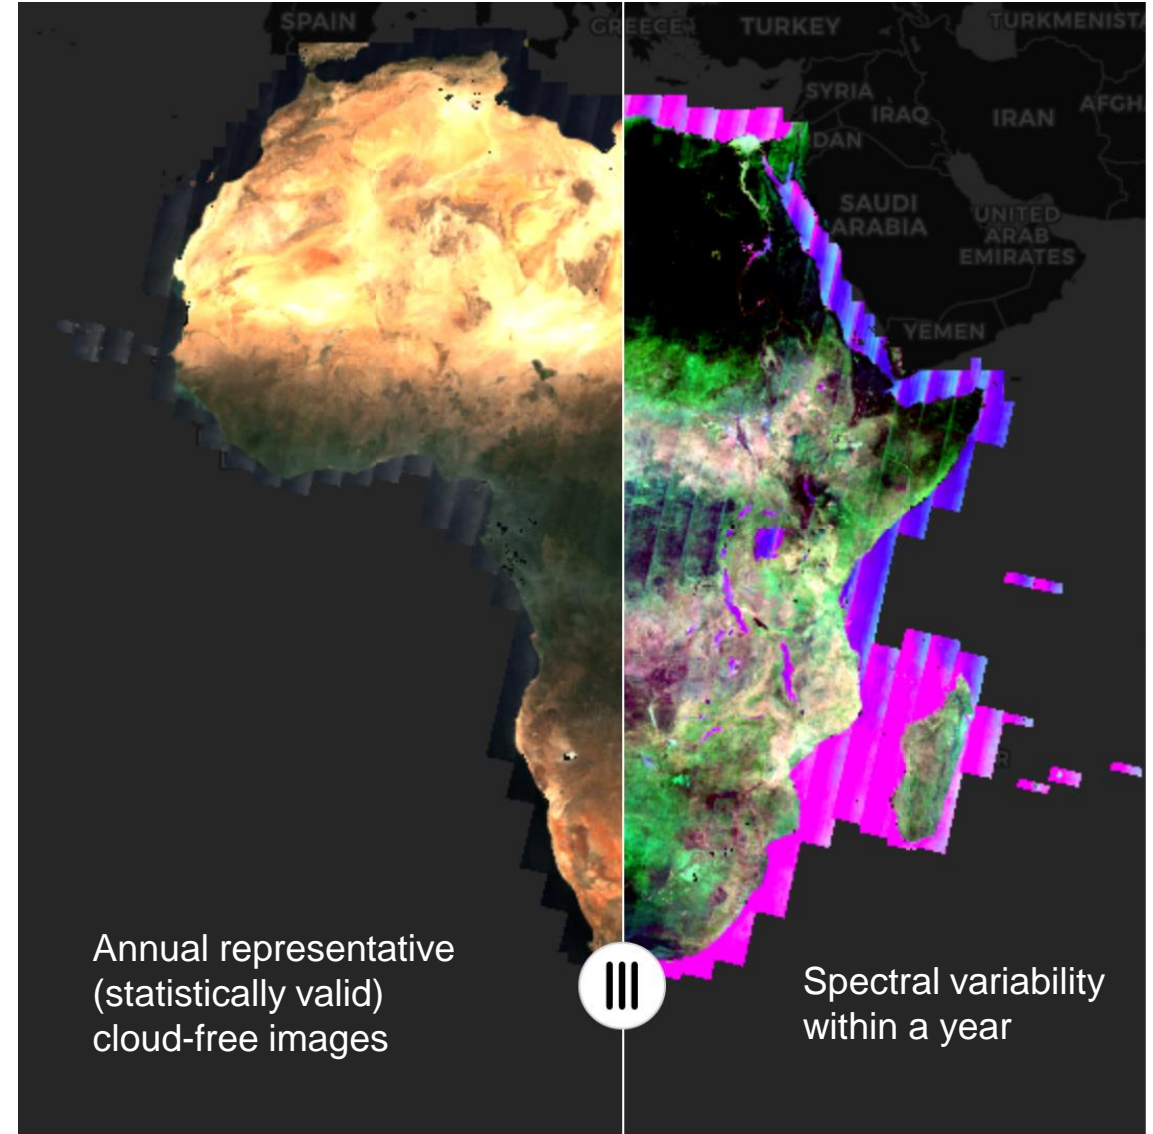

Just released!

Available through OGC Web Service and from the DE Africa Map

Provides cloud free composites for the entire continent, scientifically robust for information extraction

Saves significant amount of pre-processing time for end users

GEO Initiative - PB meeting, 18 May 2021

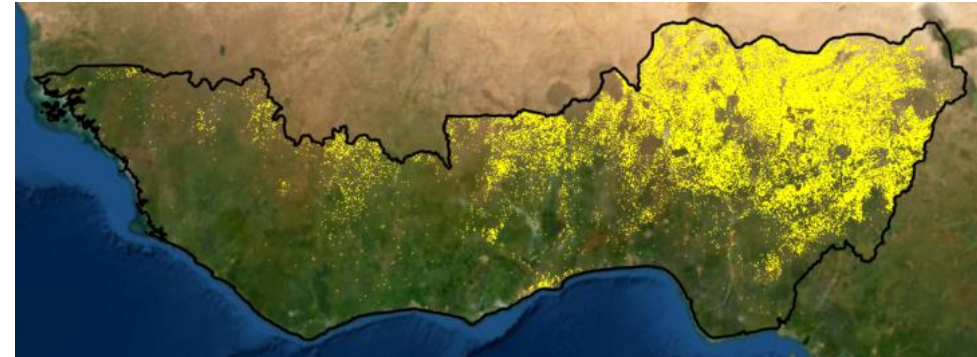

Crop Mask

Crop/non-crop map

Supervised classification using:

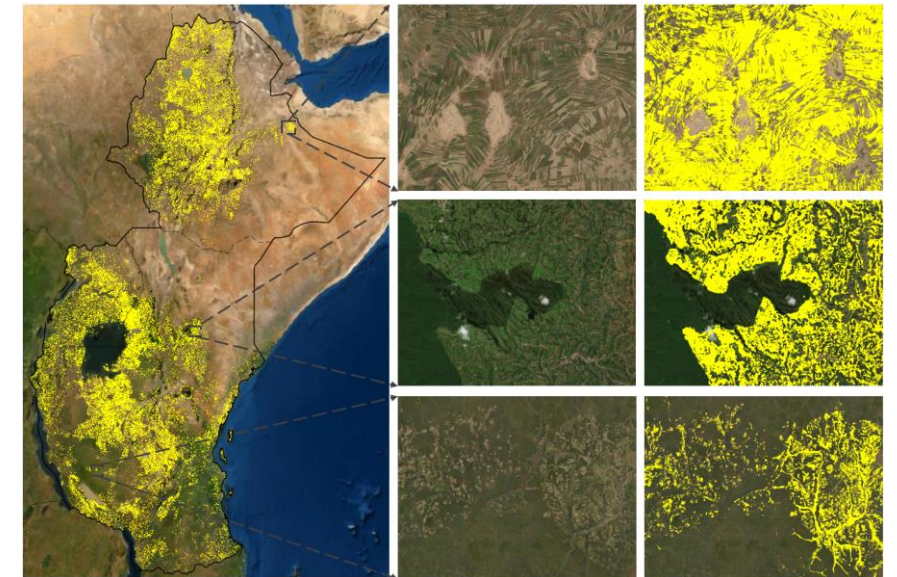

- Training data
- Semiannual GeoMAD
- Rainfall
- Slope

Under development for other regions.

Western crop mask - first run

GeoMAD | Crop mask

Eastern crop mask - prototype ⁸

Water Observations from Space

Map surface water dynamics for the continent

- 30 m resolution
- (soon to be) 1980s to now
- validated across Africa

Summary for an area in Senegal from 2013 to 2019. Colours indicate the percentage of times water was detected (Red = rarely water, green = often water, blue = always water).

Growing user community

Popular weekly live sessions
 > 15 people on average per session
 max number 26 people
 10+ countries represented. 31st occurrence last week.

Online training success
 114 awardees
 ↑150% since end Dec 2020
 11 active trainees now

Our stakeholder community is growing
 > 1400 stakeholders from over 50 countries
 ↑40% since end Dec 2020

Rapid increase in sandbox usage: 700 registered users ↑130% since end Dec 2020

Our Operating Principles

Open and Free Data

- Interoperability
- Privacy and Integrity

Operational Service

- Continental-scale
- Sustainable
- Domain expertise

Accountability and transparency

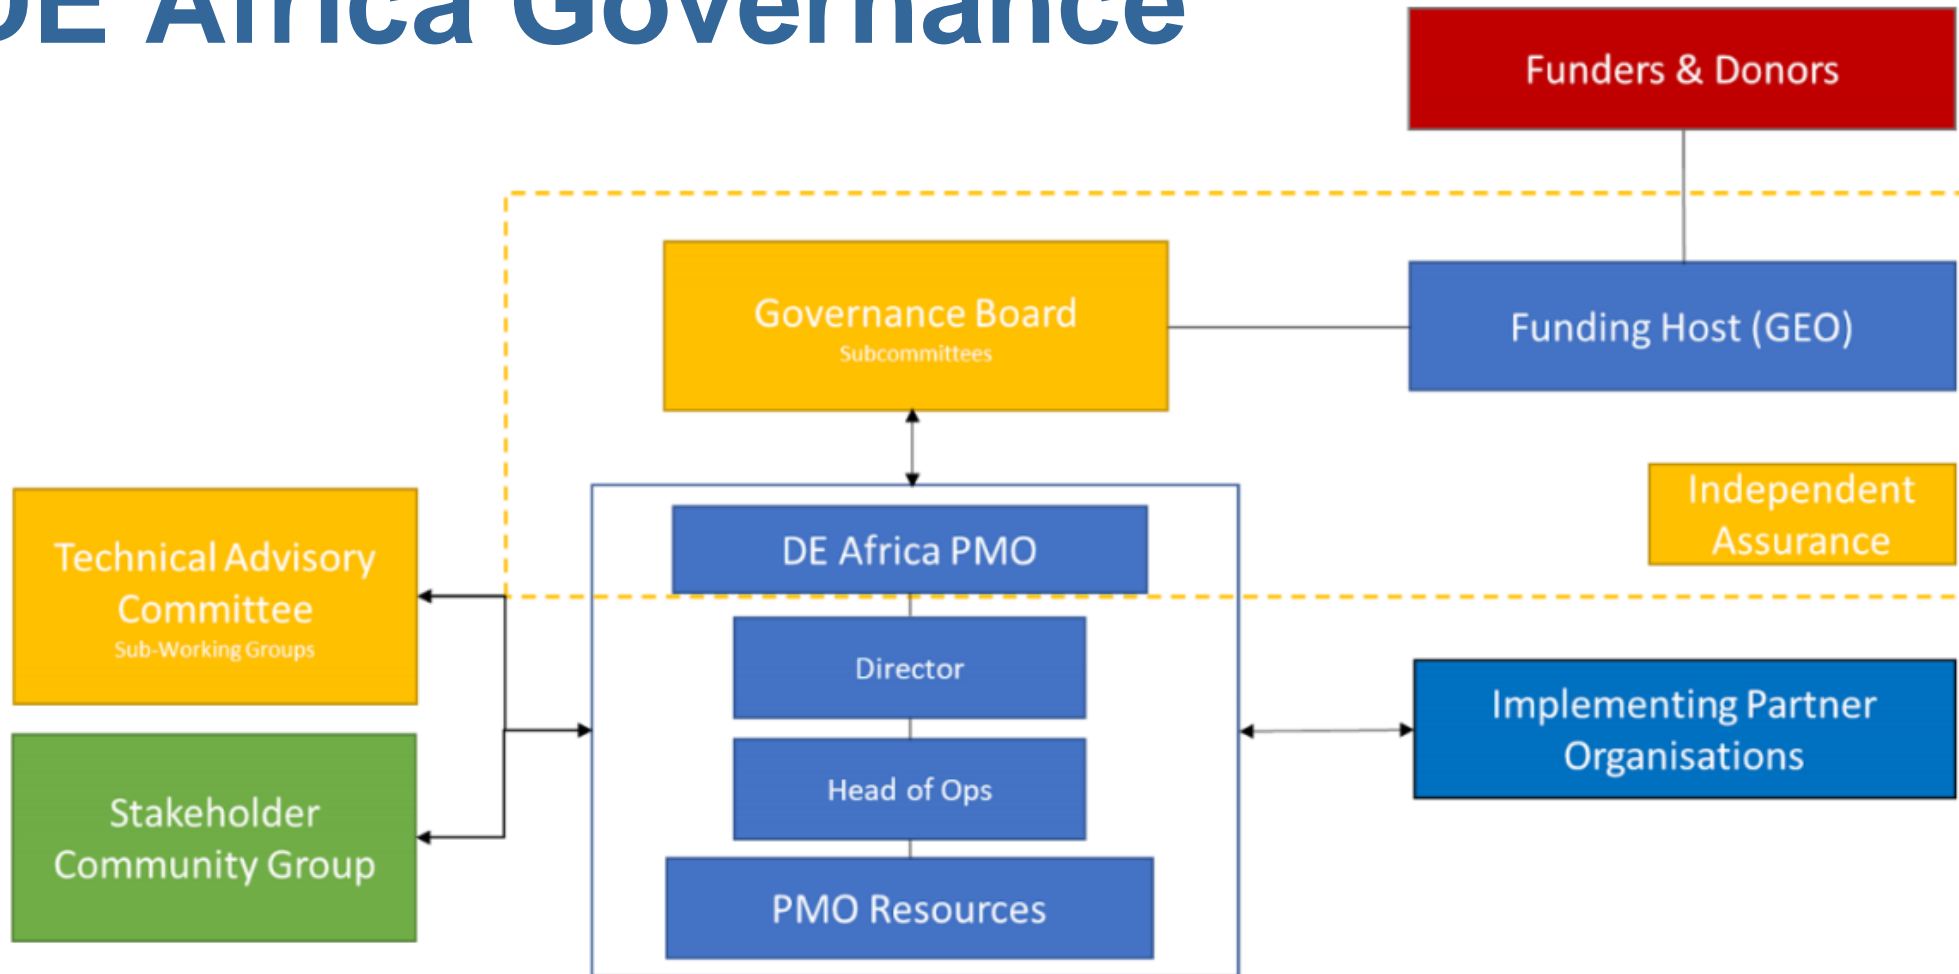

- Responsive to African priorities
- Agile, nimble and actions oriented

Diversity and inclusion

- Multi-sector perspectives
- Span data communities
- Foster collaboration

DE Africa Governance

Program delivery through partnerships

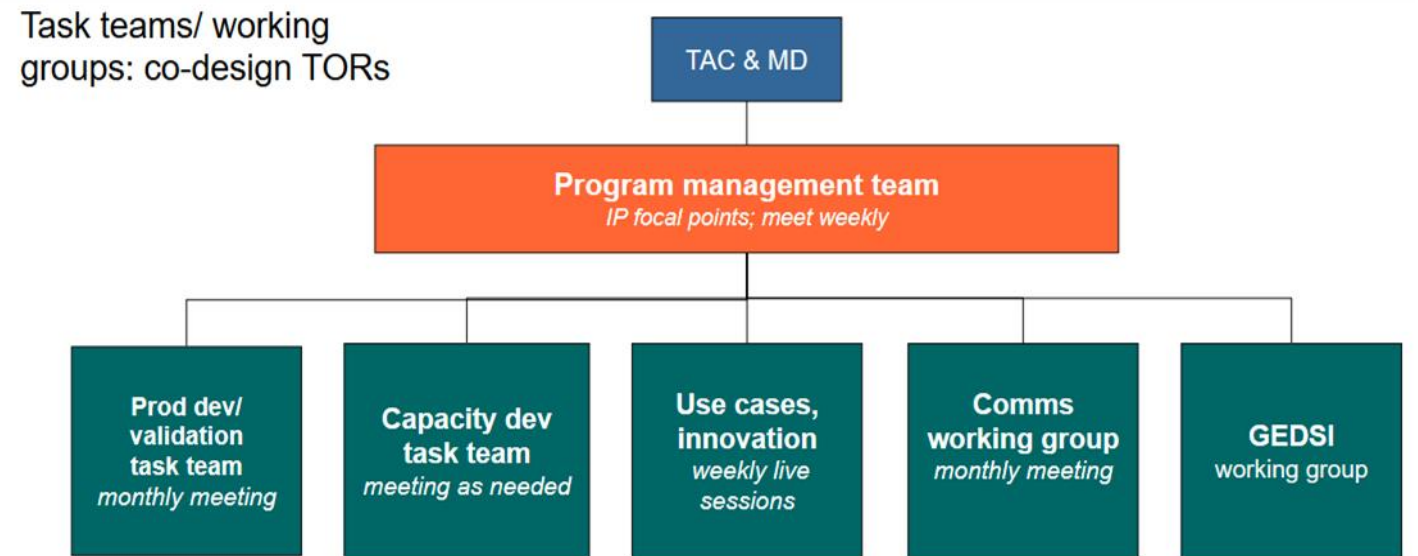

Partnership agreements:

- AGRHYMET, Niger
- AFRIGIST, Nigeria
- CSE, Senegal
- OSS, Tunisia
- RCMRD, Kenya

MOUs

- Rwanda Space Agency
- UNECA

Future partners

Thank you for your attention!
